

# How to find and listen to podcasts

March Tech Time

## What is a podcast?

It's an audio show that you listen to on your tablet, smart phone, or computer. Episodes can be downloaded for future listening. There are shows about different subjects from true crime to cooking to libraries. It can be for entertainment or learning.

## How much does it cost?

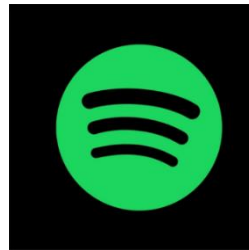

Most apps for your smart phone or tablet are free, with premium options (like advertisement free listening) at a cost. You can also usually listen to them for free from the podcast website. Below are some examples of apps for your smart phone or tablet.

### Apple Podcasts

(available on apple products only)

### Spotify

### Stitcher

### SoundCloud

### Google Podcasts

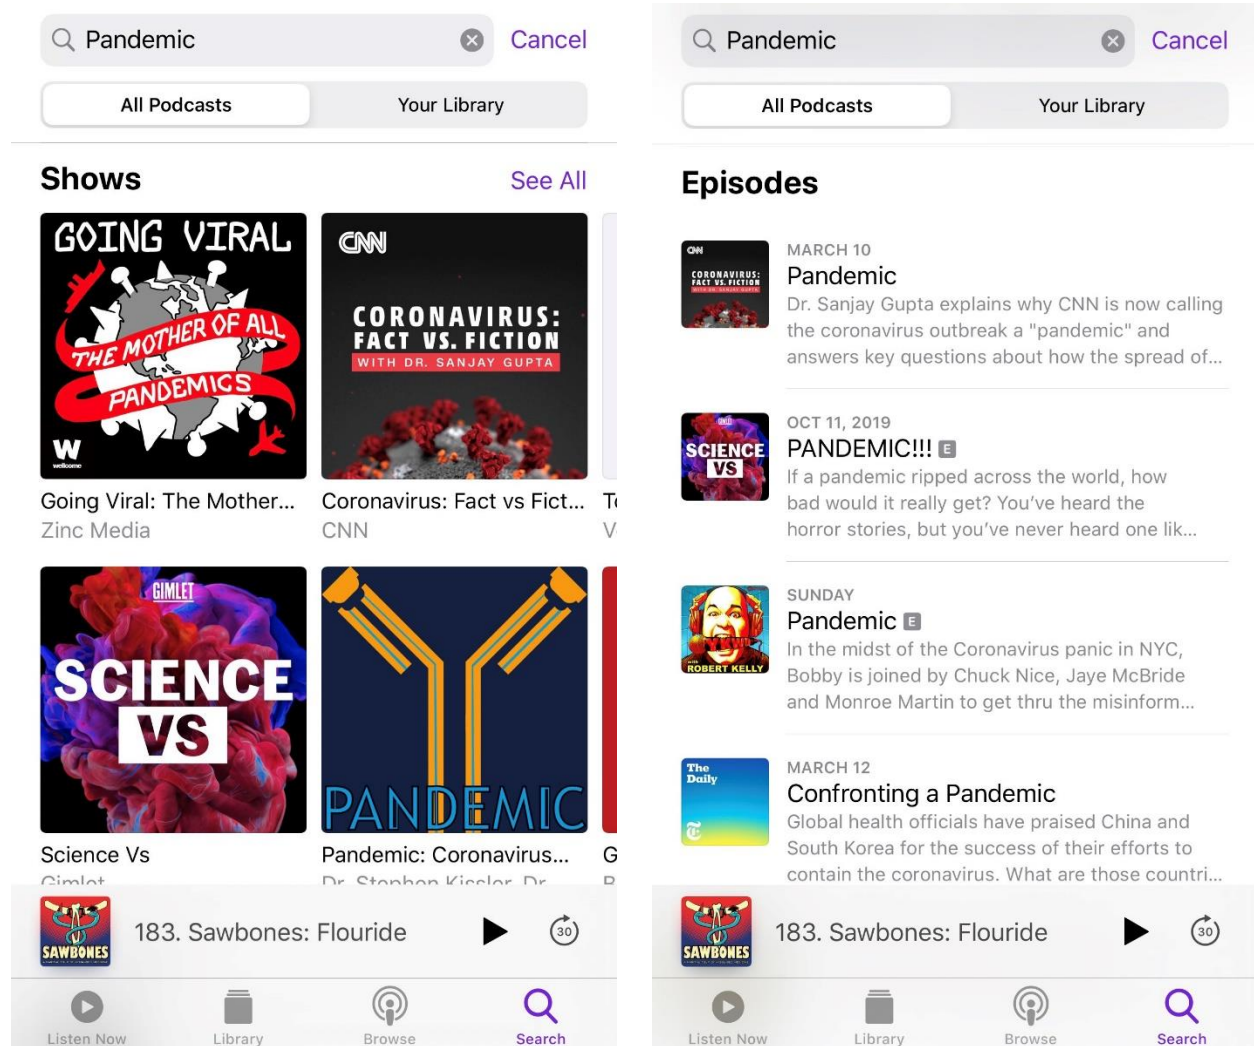

### Podbean

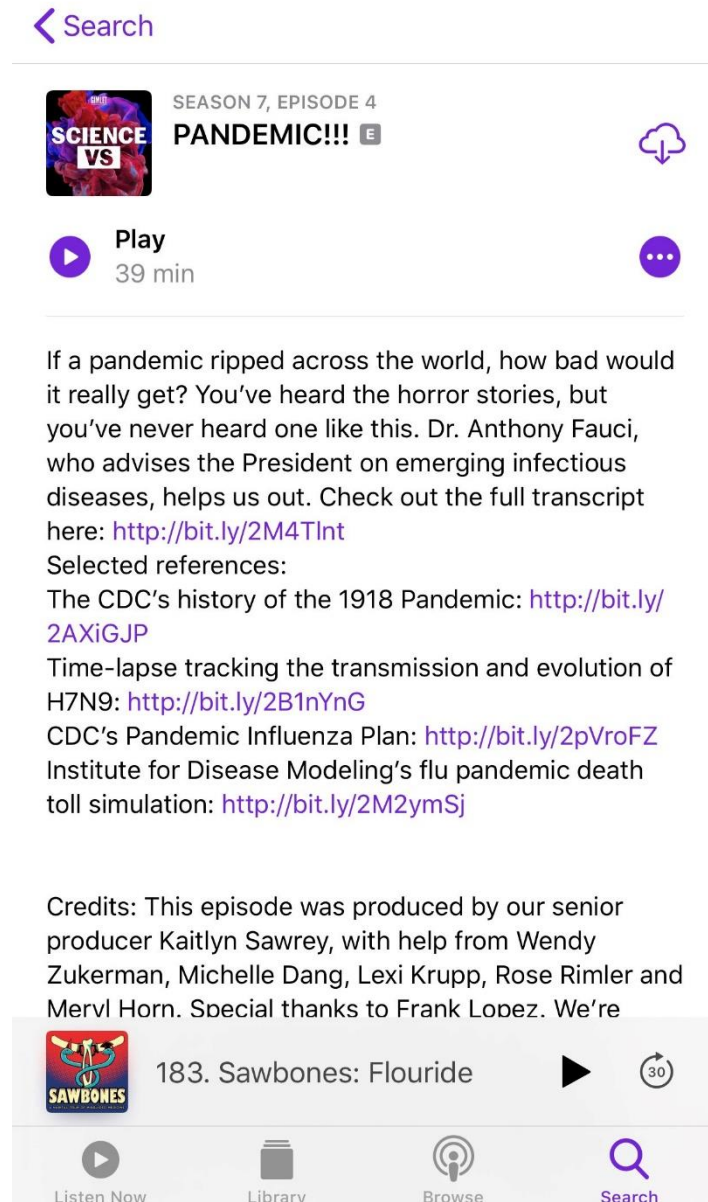

## How do I listen to a podcast?

First, choose a subject you like. After downloading one of the apps to your smart phone or tablet, search for that subject. Here's what it looks like searching in Apple Podcasts:

To play an episode, press the play button. To download for later, press the cloud with a down arrow. The purple button with the three dots will bring up more options.

- A note that the above pictures are from the Apple Podcast app. How yours will look will depend on your phone, tablet, and which app you are using.
